WHAT WE DO

Practical support across your practice

Flexible remote assistance with the core accounts and tax work that creates pressure during busy periods, staff absence and recruitment gaps.

Statutory accounts

Preparation of accurate, compliant accounts for sole traders, partnerships and limited companies, ready for practice review.

Corporation tax

CT600 preparation and supporting tax computations to help keep company compliance work moving.

Self assessment

Personal tax return support for directors, sole traders, landlords and individuals.

VAT

Preparation and review of VAT returns, supporting schedules and common VAT queries.

Management accounts

Monthly and quarterly reporting to support client decision-making and partner conversations.

Bookkeeping and cloud accounting

Remote support using established bookkeeping and cloud accounting systems.

Ideal when your practice needs extra capacity

- Year-end accounts and corporation tax deadlines are building up.
- Recruitment delays leave partners or managers absorbing production work.
- Staff absence or holiday cover creates a temporary resource gap.
- You need experienced support without a permanent payroll commitment.

HOW WE WORK

Simple, secure and designed around your practice

The aim is to integrate into your existing workflow rather than create extra management work for your team.

1

Capacity call

We discuss your workload, deadlines, software and the type of support required.

2

Scope and workflow

We agree responsibilities, turnaround expectations, review points and communication preferences.

3

Secure access

Access is provided through your practice systems, with confidentiality and data security kept central.

4

Delivery for review

Work is completed using your processes and supplied ready for your firm to review and approve.

Reassurance for partners

- Professional Indemnity Insurance in place.
- No direct client contact unless specifically agreed.
- Work remains subject to your practice review and approval.
- Confidential, professional and commercially aware communication.

Software experience

- Xero
- Sage
- IRIS
- VT
- Moneysoft
- QuickBooks
- Microsoft Excel
- TaxCalc
- Digita
- Taxfiler / IRIS Elements

Flexible engagement

Support can be arranged on an hourly, daily, project or ongoing basis depending on your workload. Pricing is agreed case by case based on complexity, volume and turnaround requirements.

WHO YOU WILL WORK WITH

Tony Scrase FCCA

Scrase Practice Support is led by Tony Scrase FCCA, an experienced accountant with 26 years of professional experience across practice and industry.

Tony supports UK accountancy practices remotely, providing experienced capacity while firms retain control of client relationships, review processes and final approval.

The focus is simple: accurate work, clear communication and dependable support when your practice is under pressure.

WHY FIRMS USE Scrase Practice Support

Capacity

Add experienced resource without increasing permanent headcount.

Quality

Work delivered professionally and ready for your firm to review.

Flexibility

Scale support up or down as practice workload changes.

Could your practice benefit from extra capacity?

Use the website contact form or call to arrange a short conversation about your workload.
